## Construction of New Building to be completed Feb. 2008

**T**he Science & Technology Building at the Bringle Lake Campus is rapidly nearing completion! Construction is moving along and should be concluded in February allowing the first classes to be tentatively scheduled for the summer of 2008.

Design work is currently underway for the library, which represents the second building that will be constructed at the new campus site. The library will be a four-story, 200,000 square foot building, at a cost of \$75 million. The library will serve as the campus icon building and will be visible upon entering the Bringle Lake Campus. The library will initially serve as a multi-purpose building, housing classrooms, offices, and a student union/bookstore.
