

Computer Science and Electrical Engineering Colloquium

This colloquium is organized to give all faculty members a good opportunity to present their research areas, their scientific results, and to exchange their views on the research activities.

The colloquium sessions are open for all colleagues and students who want to attend.

We hope that this colloquium might be especially attractive and useful for Computer Science and Electrical Engineering students.

The colloquium sessions will be held in the Science and Technology Building, room SCIT101 on the third Friday of each month from 2pm to 3 pm. 30 to 45 minutes presentations will be followed by discussions.

The following sessions are scheduled for the 2009/2010 academic year:

September 18, 2009 (this session is scheduled from 3pm to 4pm)

Dr. Igor Aizenberg

"Complex-valued artificial neurons with phase-dependent activation functions: learning, networks, and applications"

October 16, 2009

Dr. Max Laddomada

"Design of Discrete-Time Multiplierless Multirate Filters for Oversampled Wireless Receivers".

November 20, 2009

Dr. Parag Lala

"An FPGA (Field Programmable Gate Array) Architecture with Self-Healing Feature"

January 22, 2010

Dr. Feodor Vainstein

Title to be announced

February 16, 2010

Dr. Raul Cruz-Cano

Title to be announced

April 16, 2010

Dr. Victor Govindaswamy

Title to be announced
