# Biology 2401 – Human Anatomy and Physiology I
## Course Syllabus

**Instructor:** Dr. David Allard  
**Office:** 219A SCIT

### Schedule:

<table>
<thead>
<tr>
<th>Class times</th>
<th>Office Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>10:30am - 12:10pm MW BIOL 466 Evolutionary Biology</td>
<td>8:00am - 10:30am MW</td>
</tr>
<tr>
<td>1:00pm - 2:40pm MW -- BIOL 307 General Ecology</td>
<td>2:40pm - 4:00 pm MW</td>
</tr>
<tr>
<td>9:30am - 12:00pm TR - BIOL 2401 Human Anatomy and Physiology I</td>
<td>8:00am - 9:30am TR</td>
</tr>
<tr>
<td></td>
<td>12:00pm - 3:00pm TR</td>
</tr>
</tbody>
</table>

I am usually in my office on most days unless I am traveling or in a meeting. It is a good idea to call before you come in case I am out.

Check [http://www.tamut.edu/~allard/officehours.htm](http://www.tamut.edu/~allard/officehours.htm) for updates.

**Phone:** (903) 334-6672  
**Personal Webpage:** [http://www.tamut.edu/~allard/index.html](http://www.tamut.edu/~allard/index.html)  
**Email:** David.Allard@tamut.edu

**Course Description:** Basic human anatomy and physiological principles focusing on the cellular and tissue levels and their integration into the integumentary, skeletal, muscular, and nervous systems. Prerequisite Biology 1306.

### Required Textbooks/Resources:

**Lecture Text**

**Lab Texts**
| Student Learning Outcomes: | • These two come as a bundle under the ISBN 978-0895828774  
A set of colored pencils |
|---------------------------|------------------------------------------------------------------|
| The student will:         | • Identify the microscopic and gross anatomy of selected organs and systems from laboratory dissection of animal organs and systems, interactive labs, and lab demonstrations.  
• Demonstrate an understanding of macroscopic and microscopic structure and function of the human body systems.  
• Demonstrate an understanding of the systems and mechanisms involved in maintaining a state of human health.  
• Use terminology key to the fields of anatomy and physiology.  
• Correlate the relationships of the body systems as they work together.  
• Successful achievement of these objectives will be demonstrated by a grade of 70 percent or better on the lecture and laboratory exams. |
| Course Outline:          | • Introduction  
• The Tissue Level of Organization  
• The Integumentary System  
• Osseous Tissue and Bone Structure  
• The Axial Skeleton  
• The Appendicular Skeleton  
• Articulations  
• Muscle Tissue  
• The Muscular System  
• Neural Tissue  
• The Spinal Cord, Spinal Nerves and Spinal Reflexes |
<p>| Methods of Evaluation:   | The average of your lecture exams will count as 2/3 of your course grade and the average of the lab exams will be 1/3. There will be four lecture exams and four lab exams given. The |</p>
<table>
<thead>
<tr>
<th>Grading Scale:</th>
<th>A = 90-100%, B = 80-89%, C = 70-79%, D = 60-69%, F = 0-59%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Student Participation:</td>
<td>Participation Policy: Participation in the course will include attendance at all scheduled meetings and collaboration with other students in a group at assigned stations in lab. Course Etiquette: Informal class participation is welcome. Please do not make comments that are off the subject or that impede the progress of the class. Cell phones are to be turned off.</td>
</tr>
<tr>
<td>Disability Accommodations:</td>
<td>Students with disabilities may request reasonable accommodations through the A&amp;M-Texarkana Disability Services Office by calling 903-223-3062.</td>
</tr>
<tr>
<td>Academic Integrity:</td>
<td>Academic honesty is expected of students enrolled in this course. Cheating on examinations, unauthorized collaboration, falsification of research data, plagiarism, and undocumented use of materials from any source constitute academic dishonesty and may be grounds for a grade of ‘F’ in the course and/or disciplinary actions. For additional information, see the university catalog.</td>
</tr>
<tr>
<td>Drop Policy:</td>
<td>University Drop Policy: To drop this course after the 12th class day, a student must complete the Drop/Withdrawal Request Form, located on the University website <a href="http://tamut.edu/Registrar/droppingwithdrawing-from-classes.html">http://tamut.edu/Registrar/droppingwithdrawing-from-classes.html</a>) or obtained in the Registrar’s Office. The student must submit the signed and completed form to the instructor of each course indicated on the form to be dropped for his/her signature. The signature is not an “approval” to drop, but rather confirmation that the student has discussed the drop/withdrawal with the faculty member. The form must be submitted to the Registrar’s office for processing in person, email <a href="mailto:Registrar@tamut.edu">Registrar@tamut.edu</a>, mail (P. O. Box 5518, Texarkana, TX 75505) or fax (903-223-3140).</td>
</tr>
</tbody>
</table>
Drop/withdraw forms missing any of the required information will not be accepted by the Registrar’s Office for processing. It is the student’s responsibility to ensure that the form is completed properly before submission. If a student stops participating in class (attending and submitting assignments) but does not complete and submit the drop/withdrawal form, a final grade based on work completed as outlined in the syllabus will be assigned.

Upon application to Texas A&M University-Texarkana an individual will be assigned an A&M-Texarkana email account. This email account will be used to deliver official university correspondence. Each individual is responsible for information sent and received via the university email account and is expected to check the official A&M-Texarkana email account on a frequent and consistent basis. Faculty and students are required to utilize the university email account when communicating about coursework.
