Blackboard Learn is Texas A&M University-Texarkana’s virtual learning environment and learning management system. It is used for all online and web-enhanced courses, as well as a few face-to-face courses. All users log into Blackboard with their EagleID.

Minimum Computer Requirements

- A computer with enough RAM, a sufficiently fast video card, and enough processing speed to easily handle streaming video.
- A sound card.
- A high-speed internet connection preferably directly connected to the computer via Ethernet rather than wirelessly connected.
- An up-to-date operating system and web browser.

**NOTE:** For best performance use Mozilla Firefox.

- Virus and adware protection software.
- Microsoft Word, minimum version 2007 or above.
- The most recent versions of Java, Flash, QuickTime, Adobe Reader, and Shockwave.

To access your courses

Students – your EagleID is the first four letters of your last name combined with the last four numbers of your Campus Wide ID (CWID).

Faculty and Staff – your EagleID is your first initial combined with your last name.

Need assistance with your password? Please call the IT Service Desk at 903-334-6603.

**NOTE:** Your courses will become available on the official class start date.

Frequently Asked Questions

1. Where do I find my student ID?

   Answer:
   Your student ID will be mailed to you in your Admissions letter. It can also be found on your printed schedule as well as your billing statement which you receive from the Business Office. You can also contact the Registrar’s Office at 903-223-3071.

2. What is my EagleID?

   Username = first four letters of last name + last four digits of student ID

3. If my name changes, will my username change?

   Answer:
   No! Your username will be the same even if you officially change your last name on school records.

4. Will my password change?

   Answer:
   YES! Please enroll in Password Self-Service to make managing your password easier. Log in with your EagleID credentials. Enroll by selecting two security questions and putting in the answers to those questions.

   **NOTE:** Your password will expire every 180 days. You will not be able to reuse passwords. You will get an advanced notice about password expirations and may use Password Self-Service to change your password. If your password expires, you forget it, or you lock yourself out of your account, enrolled users may go to Password Self-Service and click Reset Password or Unlock Account. Answer your security questions to reset your own password or unlock your account.
